PROFESSIONAL SUMMARY

BSIT student (expected graduation July 2027) seeking a Software Developer Intern position. Led three projects as project manager and programmer using Unity (C#), JavaScript and Supabase. Experienced in AI-assisted software development, clear in English speaking and writing, and ready to take on adjacent IT tasks.

SKILLS

Programming: C#, JavaScript, Java (fundamentals), HTML, CSS
Tools: Unity, Supabase, Git and GitHub, GitHub Pages, Canva
Practices: AI-assisted development, project management, technical documentation
Soft Skills: Leadership, English communication, teamwork

PROJECTS

MACARIO – Capstone Project Project Manager and Primary Programmer (team of 3)

- Led a 3-person team to build a 2D RPG for a teacher's Grade 8 Araling Panlipunan class, which the teacher received positively.
- Developed the game, teacher dashboard and student logins with JavaScript and Supabase, and deployed it on GitHub Pages with offline play for low-end Android phones.
- Maintained the project through 363 commits, with documented decisions and progress tracking.

Coco Loco – School Project Project Manager and Sole Developer

- Developed a 2D arcade dodge game in Unity 6 and C# while managing the project as the only programmer.
- Implemented a shop, missions, scoring and difficulty that scales over time, and delivered a Windows build with keyboard and touch controls.

ChongKit – Personal Project Developer

- Built browser-based JavaScript tools, including a character sheet with optional accounts and a combat generator, across 198 commits.

WORK EXPERIENCE

OJT Trainee – eSports Academy of Asia Pacific, Dasmariñas, Cavite September 2022

- Designed promotional posters in Canva for the academy's events and prepared documents for the team over 60 hours of training.
- Promoted the new PS5 to the public at the academy's events at Mall of Asia.

Meat Processor – Bethel's Frozen Goods, Guagua, Pampanga 2020 – 2021

- Cut, weighed and packed frozen meat products as part of a factory production team during the pandemic.
- Followed sanitation procedures to keep workstations and products clean and safe.
- Completed regular 7 to 9 hour shifts and occasional 13-hour full-day shifts when needed.
